# Yue Guo

Mobile: (+1)443-525-1807 | Email: <u>yguo50@uw.edu</u> | Webpage: https://yueguo-50.github.io/ Interests: Natural language processing, machine learning, and their applications in medical domain

# **EDUCATION AND TRAINING**

University of WashingtonSeattle, WAPh.D. in Biomedical & Health Informatics: Advanced Data Science2019 - present

Johns Hopkins HospitalBaltimore, MDPostdoctoral Research Fellow2018 - 2019

Johns Hopkins University

Baltimore, MD

Master of Health Science in Epidemiology 2016 - 2018

Capital Medical UniversityBeijing, ChinaM.B.B.S. in Preventive Medicine2011 - 2016

### RESEARCH EXPERIENCE

## Research Assistant with Trevor Cohen

09/2019 - present

University of Washington School of Medicine

- Identified a new task for translation from professional biomedical literature into plain language and constructed the first dataset for this task in document level
- Applied deep neural networks BERT and RoBERTa to identify Alzheimer patients from cognitive task transcripts using TensorFlow and Gluon
- Applied machine learning models Random Forest and SVM to identify Goals of Care discussion in clinical notes

## **Research Intern** with Kyle Williams

06/2021 - 09/2021

Microsoft

- Developed a multi-task learning algorithm to generate clinical notes over 12M transcripts using PyTorch
- Designed an automatic labeling method for key sentence identification in patient-doctor conversation and improved the ROUGE score in generating clinical notes by 3

### Postdoctoral Research Fellow with Todd MucNutt

06/2018 - 08/2019

Johns Hopkins Hospital, Radiation Oncology Department

- Developed an outcome-based treatment planning optimization algorithm and added it as a feature in the Treatment Planning software using Java
- Built a RT induced xerostomia prediction model based on spatially dependent radio-morphologic dose feature using ridge regression using PyTorch
- Managed Oncospace dataset and created online questionnaires in Mosaiq

#### **Research Assistant** with Sarah Szanton

09/2017 - 06/2018

Johns Hopkins University School of Nursing

Conducted user interview and developed an interactive website prototype for evaluation data collection by Axure

## **Research Assistant** with Avonne Connor

03/2017 - 06/2018

Johns Hopkins University Bloomberg School of Public Health

 Conducted a case-control study to investigate the relationship between SNAPs in ALDH1A1 polymorphisms and the risk of breast cancer in different alcohol consumption categories using multinomial logistic regression in STATA

## Research Assistant with Youlin Qiao

08/2015 - 06/2016

Cancer Institute & Hospital, Chinese Academy of Medical Sciences and Peking Union Medical College

 Collected data from 1300 participants via in-person interviews from 6 villages and controlled the quality of data using REDCap

### **Research Assistant** with Yanxia Luo

09/2015 - 05/2016

Capital Medical University

Performed conditional logistic regression analysis in the time-stratified case-crossover study using SAS and R

#### **Peer-Reviewed Articles**

### TECHNICAL SKILLS

Programming Languages: Python, Java, SQL, R, SAS, LATEX

Scientific Toolkits: PyTorch, TensorFlow, Gluon

Designer Tools: Axure, Adobe XD

### COMPUTER SCIENCE COURSES
